

## ROLTEX TR 3600 RETRACTABLE ROOF SYSTEM

The Roltex TR 3600 offers unparalleled shade protection & functionality. Utilising the latest technology from Germany & made to the highest quality, the TR 3600 is the most stylish form of architectural shading on the market today.

**Protection** – Utilising the latest & most fashionable fabrics on the market, the Roltex TR 3600 offers many different options for sun protection. Providing complete management against harsh UV rays, heat gain, and entry of light, the system will reduce energy usage.

**Functionality** – The Roltex TR 3600 system is compact and reliable in design & can be installed on pergolas or attached to the house. The awning is easily extended or retracted with the remote control, allowing you to stop the awning at your desired position.

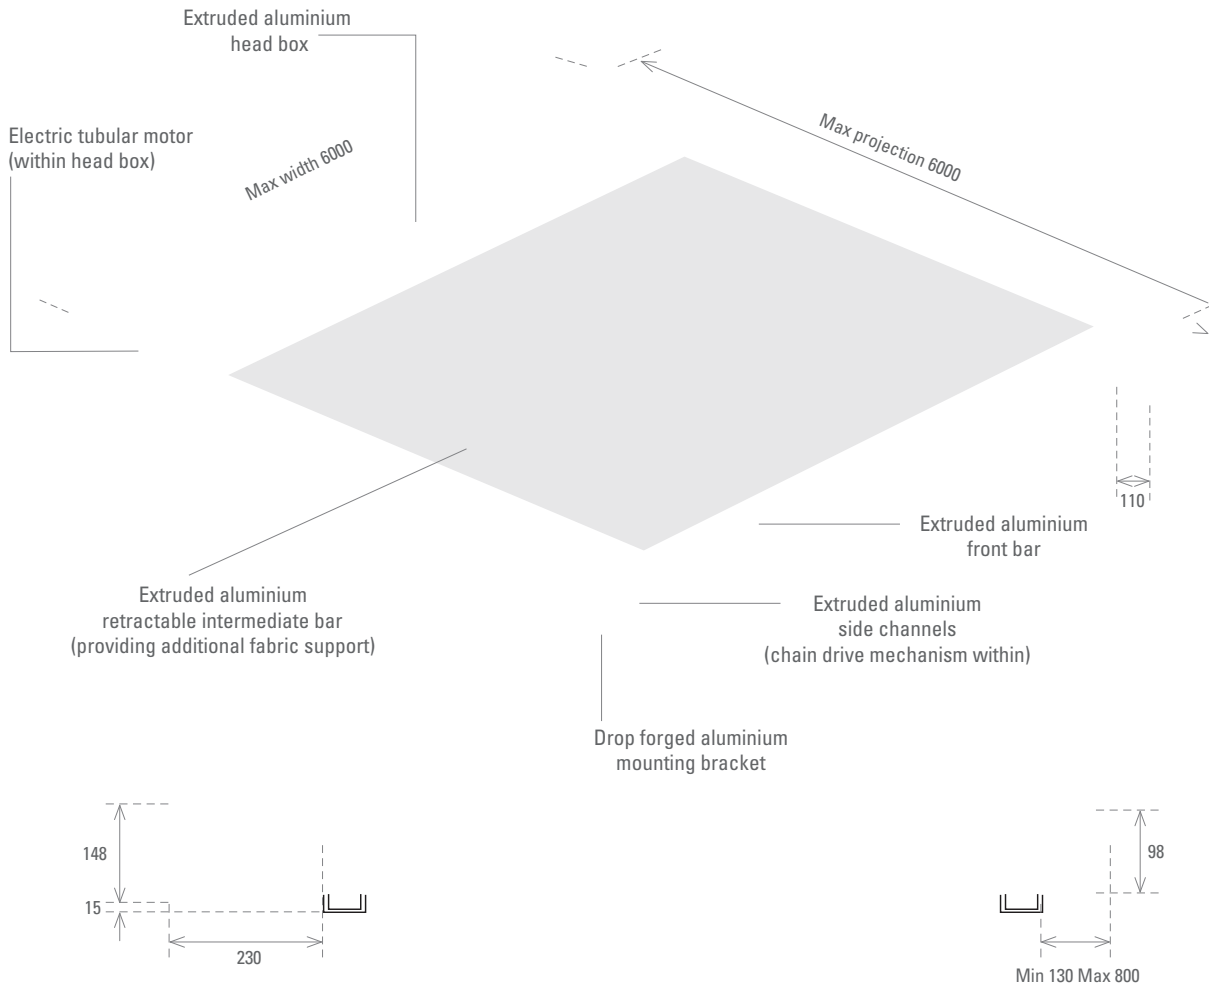

**Technology** – 316 stainless steel chain drive system, partnered with front roller spring assembly and retractable fabric support bar guarantee fabric tension is maintained in all intermediate positions.

**Quality** – Designed, engineered and built to last, with quality service & experience that you can rely on. Roltex systems utilise the very latest in German engineering techniques, and are manufactured in accordance with German TÜV Product Safety Certification
